Non-Discrimination Assurance

Lanier Elementary will not discriminate against any student or employee on the basis of ethnicity, national origin, disability, religion, sex and actual or perceived sexual orientation, or any other basis prohibited by law. Harassment under Title IX (sex), Title VI (race, color, or national origin), and Section 504 and Title II of the ADA (mental or physical disability) is a form of unlawful discrimination that will not be tolerated by Lanier Elementary. Harassment is intimidation or abusive behavior toward a student/employee that creates a hostile environment, and that can result in disciplinary action against the offending student or employee. Harassing conduct can take many forms, including verbal acts and name-calling, graphic and written statements, or conduct that is physically threatening or humiliating. This nondiscrimination policy covers admissions or access to, or treatment or employment in, Lanier Elementary programs and activities. The lack of English language skills will not be a barrier to admission to or participation in Lanier Elementary programs or activities.

Eligibility and Application Requirements

Lanier Elementary will serve students in grades PreK-5th Grade and participate in the EnrollBR Common Application. Lanier Elementary will require children entering prekindergarten at the beginning of the school session for the first time to be at least four (4) years of age on or before September 30th of the calendar year in which the school year begins. Lanier Elementary will require children entering kindergarten at the beginning of the school session for the first time to be at least five (5) years of age on or before September 30 of the calendar year in which the school year begins. For students entering first grade for the first time at the beginning of the school session, they shall be six (6) years on or before September 30 of the calendar year in which the school year begins. A child younger than the above may be permitted to enter school
provided the child has been evaluated and identified as gifted in accordance with the regulations of the Louisiana Department of Education for such evaluation. A child admitted to kindergarten shall be eligible to enter first grade upon successful completion of kindergarten, provided all other applicable entrance requirements have been fulfilled.

Parent(s)/guardian(s) are encouraged to attend an orientation meeting with their child(ren) to understand the school’s vision and policies. Parents who choose to send their children to Lanier Elementary will be asked to complete a form to participate in the lottery which will take place in mid-December (and in conjunction with EnrollBR timelines in the future). Students selected in the lottery will complete the school enrollment procedures.

Lanier Elementary accepts applications for the lottery via the EnrollBR online system. If parents do not have access to the internet, school staff will make available technology and personnel to assist in the online enrollment procedure. A public random drawing process is implemented if the number of students who wish to attend the charter school exceeds the school’s “capacity.” Preference is as follows:

1. Pupils who currently attend the School
2. Siblings of students enrolled at the school.
3. Children of Staff Members

Due Dates for Applications

Public notice of the lottery’s procedures, timelines, and rules will be posted on the school’s website and will be posted in the school’s lobby regarding the date, time, and location of the public drawing. The lottery will be conducted in the evening on the date agreed upon by EnrollBR participants so interested parties will be able to attend. Parents do not need to be present at the public random drawing.

Lottery Location
The lottery will take place on school grounds in the evening and will be open to the public. The lottery will be held in the evening to ensure parent and interested parties are able to attend and observe the lottery.

This is accomplished by facilitating student research, differentiating instruction, accommodating student needs, augmenting student communication skills, and motivating students to become life-long learners. We are very pleased to bring these vast, diverse, and unique resources to RSL students and teachers.

In an effort to provide students the resources accessible through a computerized information resource such as the Internet, RSL believes it is necessary for all persons to become aware of acceptable uses of technology. The academic benefit of having access to resources from all over the world must be weighed against objectionable materials found on the Internet.

Faculty, students, district leaders, and the community must work together as knowledgeable and collaborative partners to support the academic benefits of these resources while helping students avoid the sometimes inaccurate and/or objectionable resources available through technology. In support of this collaboration, parents, students, and the community who have questions, requests, or suggestions may call 225-290-1564.

Any Strategy used to circumvent the domain security settings including removing device from the domain is violation. External removable devices are prohibited, including USB drives and flash drives.

Technology and the RSL Network

The RSL Technology Resources include a wireless and wired network, a sophisticated security system, handheld and portable technology devices, computers, cameras, video and audio equipment, projectors, and numerous instructional resources delivered with computer technology.

The Internet

The Internet is an international network of computer users encompassing elementary and secondary schools, universities, government agencies, businesses and corporations, and millions of individuals. This telecommunications network will allow students and teachers to have access to:

- online instructional resources
- online books
- research institutions, i.e., Universities, NASA, etc.
- electronic mail (email) communication with people all over the world
- databases
- online library catalogs and resources, Library of Congress, etc.
- other world wide web sites
Use of the Internet

The Internet is a vast global computer network. Acceptable use of these resources shall be consistent with the philosophy, goals, and objectives of RSL. Any person using computers or other electronic information resources shall be required to use such equipment and resources in a responsible, legal manner and must have a consent form on file. RSL retains the right to monitor all computer usage and files for compliance with all regulations and/or procedures.

Accordingly, regulations for participation by anyone on the Internet shall include, but not be limited to, the following:

1. Appropriate language and manners, which demonstrate honesty, ethics, and respect for others shall be required.
2. Individual students shall be permitted to have e-mail accounts created by RSL. Student email accounts shall not be considered private and will be monitored by district personnel.
3. Two-way, real-time electronic communication technologies such as Internet-based instant messaging and Internet chat shall not be allowed during the school day. Furthermore, the participation by students in asynchronous electronic forums or bulletin boards shall be prohibited. The exception to this is pre-approved access to such technologies and/or sites for a specific educational need.
4. No personal addresses or personal phone numbers shall be permitted on the Internet. Impersonations are not permitted.
5. The Internet shall not be used for commercial, political, illegal, financial, or religious purposes. Violations shall be reported to a teacher or administrator immediately.
6. Threatening, profane, harassing, or abusive language shall be forbidden.
7. Use of the network or other technology resources for any illegal activities is prohibited. Illegal activities include: (a) copyright or contract violations, (b) tampering with computer hardware or software, (c) unauthorized entry into computers and files, (d) knowledgeable vandalism or destruction of equipment, and (e) deletion of computer files. Such activity may be considered a crime under state and federal law.
8. No user is permitted to knowingly or inadvertently load or create a computer virus or load any software that destroys files and programs, confuses users, or disrupts the performance of the system. Certified personnel or designee should only install software.
9. Resources offered by the Internet and paid for by RSL may not be willfully wasted.
10. Invading the privacy of another user, using another’s account, posting personal messages without the author’s consent, and sending or posting anonymous messages shall be forbidden.
11. Accessing pornographic or obscene materials or using or sending profanity in messages is forbidden.
12. Perusing or otherwise accessing information on manufacturing bombs or other incendiary devices shall be forbidden.
13. Email, web access, and other electronic communications should not be considered private. While it is a violation of policy for a user or student to attempt to gain access to information for which they do not have authorization, authorized staff may monitor or examine email, file folders, and communications to maintain system integrity, to ensure users are using the system responsibly, or for any other reasonable purpose.
14. All web pages or electronic publications created by any organization, staff, student, or other person that are housed on the RSL funded computer systems shall be subject to treatment as RSL-sponsored publications. Therefore, the RSL reserves the right to exercise editorial control over the content of these web pages or publications. Only content that supports the administrative, instructional, or other legitimate mission of the school shall be allowed on RSL or school web sites. Content of all RSL and school web sites shall conform to pertinent regulations. Additionally, no web page that represents any school, department, or organization of RSL may be published on a web server that is outside of the district’s control without written permission of the Superintendent.

Use of the Internet is a privilege, and any inappropriate use may result in disciplinary action and loss of privileges to use the Internet. Disciplinary action may include, but is not limited to, loss of computer use, monetary reimbursement, suspension, detention, or assignment in Behavior Modification Class. This shall apply to all students.

ACCOUNTABILITY

Students' use of school computers or the School Computer System (SCS) is provided for academic purposes. All students using a school computer or a computer network or computers accessing the Internet shall be accountable for its use. This shall include, but not be limited to: (a) unauthorized use resulting in expenses to the school; (b) equipment damage; (c) use of unauthorized software; (d) privacy and copyrights; (e) tampering; (f) accessing obscene and objectionable materials; (g) sending or soliciting inflammatory, abusive, harassing, vulgar, or obscene messages or language; (h) disregarding established safeguards which align the district's technology systems to the Children's Internet Protection Act; (i) using another’s password or sharing passwords with others; and (j) any action that is deemed inappropriate by supervisory personnel. Email and student or class files on the network are analogous to school lockers, that is, these accounts will be treated as district property subject to control and inspection, rather than private property which cannot be searched without just cause. The network administrator (or designee) shall assign access codes or passwords if and/or when it is needed. Use of the Internet and/or the SCS is considered a privilege and any inappropriate use may result in a disciplinary action and loss of privileges to use the Internet and/or the SCS. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the district’s systems may result in one or more of the following consequences: (a) temporary or permanent loss of privileges, (b) payments for damages and repairs, (c) discipline as outlined in the district policy manual, (d) suspension, expulsion, and/or (e) civil/criminal liability under other applicable laws.

UNAUTHORIZED AND ILLEGAL USE

Tampering with selection menus, procedures, or icons for the purpose of misleading or confusing other users shall be prohibited. Any use by any person of the SCS that incurs expenses to the school other than the monthly user fees and rates shall be strictly prohibited. The computer system shall not be used for commercial, political, or religious purposes.

Use of the network for any illegal activities shall also be prohibited. Illegal activities include: (a) tampering with computer hardware or software, (b) unauthorized entry into computers and files, (c) knowledgeable vandalism or destruction of equipment, and (d) deletion of computer files. Such activities are considered a crime under state and federal law.
The use of personal hardware (such as laptop computers, MP3 players, iPods, etc.) and software is allowed when approved by principal/supervisor for educational purposes. This does NOT include consumables such as CDs or flash/pen/thumb drives.

PRIVACY AND COPYRIGHTS

ALL students must adhere to the Copyright Laws of the United States (P.L. 94 -533) and the Congressional Guidelines that delineate it regarding software, authorship, and copying information. The unauthorized copying or transfer of copyrighted materials may result in the loss of network privileges. Reposting personal communications without the original author’s prior consent shall be prohibited. To do this is a violation of the author’s privacy. All persons who willfully violate copyright laws do so without the sanction of RSL and at their own risk and will assume all liability and responsibility.

However, all messages posted in a public forum such as news groups or list serves may be copied in subsequent communications, so long as proper attribution is given.

RSL directs that:

1. Unlawful copies of copyrighted materials shall not be produced on RSL-owned/leased equipment or within RSL-owned facilities.
2. Unlawful copies of copyrighted materials shall not be used on RSL-owned/leased equipment, within RSL-owned/leased facilities, or at RSL sponsored functions.
3. Information about copyright law and guidelines shall be made available.

INSTALLING PRANK SOFTWARE

Students should avoid the knowing or inadvertent spread of computer viruses. "Computer viruses” are programs that have been developed as pranks, and can destroy valuable programs, and data. To reduce the risk of spreading a computer virus, students shall not import files or programs from unknown or disreputable sources. If a student obtains software or files from remote sources, proper procedures should be followed to check for viruses before use. Deliberate attempts to degrade or disrupt the system or the performance of the network or spreading of computer viruses shall be considered criminal activity under state and federal law. Only certified personnel or designee shall load any software.

OBJECTIONABLE MATERIALS

RSL, in compliance with the Children’s Internet Protection Act, will use its best efforts to prevent access to material reasonably believed to be obscene or child pornography, conducive to the creation of a hostile or dangerous school environment, pervasively vulgar, excessively violent, sexually harassing, or disruptive in the school environment. RSL shall enforce a policy of Internet safety that incorporates the use of computer-related technology or the use of Internet service provider technology designed to block or filter access for minors and adults to certain visual depictions and materials as mentioned above.

It should be understood that no matter how much supervision and monitoring RSL schools provide, there would always be the possibility of a user coming into contact with inappropriate material.
Proanity or obscenity shall not be tolerated on the network. All persons should use language appropriate for school situations. Offensive or inflammatory speech should be avoided. The rights of others must be respected both in the local network and the Internet at large. Personal attacks are an unacceptable use of the network. If a user is a victim of a “flame,” a harsh, critical, or abusive statement, the user should bring the incident to the attention of the teacher or network systems manager. It is usually better not to respond. Furthermore, retrieving and/or viewing pornographic or obscene materials shall not be allowed.

The SCS are provided for academic purposes. Conduct that is in conflict with the responsibilities as may be outlined in this document shall be subject to disciplinary action. Any stakeholder wishing to report improper, illegal, or illicit conduct using RSL technology can call 225-290-1564.

Special restrictions by the school or RSL may be implemented in order to meet special needs provided that RSL policy is not violated.

WARRANTY OF SERVICE

RSL no warranties of any kind, whether expressed or implied, for the service it is providing. RSL shall not be responsible for any damages suffered. This includes loss of data resulting from delays, non-deliveries, mis-deliveries, or service interruptions caused by the district’s negligence or the user’s error or omissions. Use of any information obtained via the Internet is at the user’s risk. RSL specifically denies any responsibility for the accuracy or quality of material or information obtained through its service.

I have read, understand, and agree to abide by the provisions of the Acceptable Use Policy of the Redesign Schools Louisiana School District.

b) Sign a student release form for each student you are taking.

c) Please leave the premises as quickly as possible after signing out your child.

d) If you would like to help with first aid, dismissing students, etc., please see your School’s Parent Community Liaison to sign up to volunteer. Volunteers should leave students with their classes and should not sign a student release form until they are ready to leave.
